To whom it may concern

Notice of introduction of rotating holiday

As you know, because of major earthquake occurred in eastern Japan, electricity shortage in the quake-affected area including the location of our company is expected during this summer. Then, Ministry of Economy, Trade and Industry and other authorities concerned request business enterprises to save electricity in Japan.

Following that request, we have decided to introduce rotating holiday, in conformity with the decision for Alliance with Automobile Manufacturers' response.

Thank you in advance for your understanding and cooperation in this matter.

[Change of holidays]

Saturday and Sunday to Thursday and Friday
